Regulations and Curriculum in Arts

ADMISSION

1. There are two ordinary modes of proceeding to the Degree of Bachelor of Arts, viz.: (1) by taking the General Course; (2) by taking an Honor Course.

2. Candidates for admission to the Faculty of Arts who do not present certificates of Departmental Junior Matriculation or its equivalent must pass the matriculation examination of the Western University. Candidates presenting certificates of Departmental Honor Matriculation or equivalent shall be admitted to Honor Courses in the First Year in any work corresponding to their certificates; or they shall be given First Year standing in the General Course in the subjects covered by their certificates.

3. The equivalents of certificate of Departmental Junior Matriculation are, (1) Junior Teacher's certificate, (2) certificate of matriculation at any accredited university. The equivalents of certificate of Departmental Honor Matriculation are, (1) Senior Teacher's certificate, (2) certificate of Honor Matriculation at any accredited university.

4. Candidates presenting certificates of matriculation lacking two subjects may be admitted to the courses in the First Year without any examination. Those who enter, however, in this way must, before beginning any work of the Third Year, have removed their conditions at regular matriculation examinations held at the University in May and September.

5. The subjects of Junior Matriculation are as follows:—Latin, English, History, Mathematics, and any two of the following: Greek, French, German, Experimental Science.

6. The pass standard in each subject is forty per cent. The first-class honor standard is seventy-five per cent., the second-class honor standard sixty-six, and the third-class fifty per cent. Candidates who have obtained pass standing in at least one-half of the subjects may complete Junior Matriculation by passing in the remaining subjects at a subsequent examination or examinations.

SPECIAL STUDENTS

7. Special Students who are not candidates for a degree may be admitted to classes in the University if, in the opinion of the professors in charge, they are qualified to pursue satisfactorily the courses chosen. Such special students must satisfy the professors in regard to regular attendance and attention to the work of the class. They will not be allowed to advance from year to year in a department without taking the regular examinations.

8. Special Students may, at the beginning of any college year, on presenting qualifications for entrance, be allowed to enroll as regular students and become candidates for degrees subject to the regulations governing such students. The work satisfactorily carried and passed by them as special students will be put to their credit for the degree of B. A.

ADMISSION "AD EUNDEM STATUM"

9. All applications for advanced standing must be accompanied by official certificates of standing from the institutions where previous work has been done. These applications shall be referred to a committee of the Faculty of Arts to be composed of the heads of all departments in which students ask credit for work done elsewhere.

REGULATIONS RELATING TO THE GENERAL COURSE

10. An undergraduate is entitled to the degree of Bachelor of Arts if in each year of his course he passes the examinations in the prescribed work of the General Course.

11. Candidates in the General Course in Arts shall be ranked in order of merit in each subject in the annual class lists in three grades, A, B, C; the minimum for grade A shall be sixty-six per cent. of the marks, and for grade B fifty per cent.; all who pass with less than fifty per cent., but not less than forty per cent. (the minimum for pass), shall be placed in grade C.

12. In all subjects of the General Course the ratio of term-work marks to examination marks will be as fifty to one hundred. In an Honor Course the ratio of term-work marks to examination marks is determined by the teaching staff in that subject.

13. Regular students in the General Course who have not attended at least eighty per cent. of the lectures for the term in a subject may be debarred from taking the sessional examination in that subject.

14. Sessional examinations will be held for the General Arts Course in January and in May. The student must obtain the required percentage, at least forty, both for the first and for the second term's work in each subject. Supplemental examinations will be held in May for those who have failed in the first term; in September for those who have failed in the second term's work or in the year's work in any subject.

15. Students failing to obtain twenty-five per cent. on the year's work in a subject shall not be eligible for re-examination without a further year's attendance on the lectures in the subject in which they have failed.

16. In courses where each year's work depends directly upon that of the preceding year, no student who has failed may take up the work of the following year. The application of this rule shall rest with the professor in charge.

17. A student who at the close of the September supplemental examination has not obtained standing in at least half of the subjects of the year shall not rank as a student of the succeeding year, though he may be allowed to proceed in those subjects in which he has obtained standing.

18. For sufficient reasons, a student may, on application to the Senate, be permitted to present himself for an examination in a subject without previous attendance upon classes.

19. When a candidate at an examination is starred in a subject which is one of two or more subjects between which an option exists at the said examination, the candidate at his supplemental examination may present himself in any one of such alternative subjects, subject to the condition laid down in §18.

20. In the case of subjects taken conjointly by the Third and Fourth Years, and required in both years, a candidate shall not be given standing in his third-year subject unless the third-year examination which he passes covers a different prescription of texts from that covered by his fourth-year examination.

21. A student who has not been granted complete first-year standing may not enter upon any work of the third year; nor a student who has not been granted complete second-year standing, upon any work of the fourth year.

22. At the beginning of the second, third or fourth year a student may be transferred from the General Course to an Honor Course, or *vice versa*, or from one Honor Course to another (cp. §33), by passing an examination on such subjects, and by obtaining therein such a percentage as may be required by the Senate, in view of the nature of the transfer granted. But transfer to an Honor Course shall not be granted to any student who is starred in any subject of the General Course.

23. A student in the General Course who wishes to take honors in a department may be allowed to repeat his year, taking the work of the honor department only, if he so desires, and on passing with honors he shall be allowed to proceed in that department.

EXTRAMURAL STUDENTS

24. For sufficient reasons, students may, on application to the Senate, be allowed to enter upon or pursue the work of the courses, and to present themselves for examination at the appointed time without attendance upon classes; but such extramural candidates for degrees must, before being enrolled, present certificates of Departmental Junior Matriculation in Arts or equivalents, as in §3 above. Provision may be made by the Senate for examination of extramural students at a local center, the cost of the examination to be defrayed by the candidates. Extramural students are subject to a special fee, to be paid annually at the time of registration.

REGULATIONS RELATING TO THE HONOR COURSES.

25. There are four Honor Departments, viz.: I., Classics; II., Modern Languages; III., English and History; IV., Mathematics.

26. Candidates shall not have the right to claim examination in more than two Honor Courses after the first year.

27. In the annual class lists the names of candidates who obtain Honors in any department or subject shall be arranged in order of merit in three classes: those obtaining seventy-five per cent. and over of the total number of marks being placed in the first class; those obtaining sixty-six per cent., and less than seventy-five per cent., being placed in the second class; and those obtaining fifty per cent. and less than sixty-six per cent., being placed in the third class.

28. The regular examinations will be held for the Honor Courses in May.

29. A candidate pursuing a course in an Honor department who falls below the third class in his department shall not be allowed standing for the year. But candidates whose average is not less than third class, but who have fallen below third class in any one subject, may, on the recommendation of the examiners, be allowed to proceed as Honor candidates in the following year.

30. A candidate who fails to obtain standing in his Honor Course may receive credit in the General Course on such conditions as the Senate may determine.

31. A candidate who competes for Honors at the examination for Bachelor of Arts, and fails to obtain the requisite number of marks to entitle him to be classed in Honors, may, on the recommendation of the examiners, be awarded a degree without Honors; it being at the option of the candidate to accept the award of such a degree, or to wait until a subsequent examination, and again compete for a degree in Honors.

32. An undergraduate who has obtained Honors in any department may, with the consent of the Senate, be transferred to any other department, and proceed therein; but as a prerequisite to obtaining the Degree of Bachelor of Arts, he must, during his course, have passed the examinations in the subjects of the General Course required in the Honor Department to which he is transferred.

DEGREE OF MASTER OF ARTS.

33. A candidate must be of at least one year's standing as Bachelor of Arts in this or any other University whose degree of Bachelor of Arts is accepted by the Senate of this University.

34. A candidate who obtained Honors at graduation may, on subsequently obtaining Honors at the examination of the Fourth Year in a course other than that in which he obtained Honors at graduation—the selection of such course to be approved by the Senate—be granted the degree of Master of Arts.

35. A candidate who at graduation obtains First-class Honors in two Honor Courses may, when the selection of courses has been approved by the Senate, without further examination, be granted the degree of Master of Arts.

36. A candidate who has obtained a degree in the General Course, not falling in his Fourth Year below Grade B in more than two subjects, or a candidate who has received his degree in an Honor Course, may receive the degree of Master of Arts on

presenting a thesis adjudged to be of sufficient merit, containing the results of some special study or investigation of any subject approved by the professors and heads of the department or departments in the University in which the subject of the thesis lies. The candidate shall be required to undergo a written or oral examination on the subject of the thesis conducted by the professors and heads of the departments concerned, such written or oral examinations to be held during the annual examinations.

37. Notice of the subject which the candidate proposes to take for his thesis must be given to the Registrar on or before the first day of January, and the thesis must be presented on or before the first day of April.

38. It is recommended that the copy of the thesis presented by the candidate for the degree of Master of Arts be either printed or typewritten. When the degree is conferred, the thesis becomes the property of the University.

ADMISSION "AD EUNDEM GRADUM."

39. A graduate in the Faculty of Arts in any University (if his degree be not an honorary one) may be admitted, if approved, to the same degree in the Western University.

Junior Matriculation: PASS

GREEK

40. Translation into English of passages from the prescribed texts, with questions thereon.

Translation at sight of simple narrative passages similar to the Xenophon prescribed.

Questions on Greek accidence and on the common rules of Greek syntax, to test the candidate's accuracy and comprehension in such matters as are needful for the intelligent reading of his texts.

The following are the prescribed texts:—

1910: Xenophon, Philpotts and Jerram, Easy selections from Xenophon, chaps. 3, 4, 5; Homer, *Iliad*, VI., 66-118 and 237 to the end.

Two papers will be set: (1) prescribed texts; (2) translation at sight, accident and syntax.

LATIN

Translation at sight of passages of average difficulty from *Cæsar*, upon which special stress will be laid.

Translation, with questions, from a prescribed portion of Vergil's *Æneid*.

The marks assigned for the translation from prescribed authors shall not be more than twenty-five per cent. of the total marks assigned to the Latin papers.

Questions on Latin accident.

Translation into Latin of English sentences involving a knowledge of the following principles of Latin syntax: The common uses of the cases; the accusative with the infinitive; the subjunctive in simple sentences; final and result clauses; the law of the sequence of tenses; the indirect question; verbs of fearing, doubting and hindering; the use of the participle, gerund and gerundive, active and passive periphrastic; indirect discourse; and the common forms of the conditional sentence.

The vocabulary will be taken from the prescribed portion of *Cæsar* and special stress will be laid upon this part of the examination.

Examination upon a short prescribed portion of *Cæsar*, to test the candidate's knowledge of Latin syntax and his power of idiomatic translation.

The following are the texts prescribed:—

1910, 1911: *Cæsar*, *Bellum Gallicum*, Book IV., chaps. 20-38, and Book V., chaps. 1-23; Vergil, *Æneid*, Book I., vv. 1-510.

Two papers will be set: (1) translation at sight, Vergil, and accidence; (2) translation into Latin, syntax and idiomatic translation from prescribed Cæsar, etc.

ENGLISH

GRAMMAR AND RHETORIC: The main facts in the development of the language. Etymology and syntax, including the logical structure of the sentence and the inflection, classification and elementary analysis of words. The rhetorical structure of the sentence and paragraph.

One examination paper.

COMPOSITION: An essay, to which special importance will be attached, on one of several themes set by the examiner.

One examination paper.

LITERATURE: The candidate will be expected to have memorized some of the finest passages. Besides questions to test the candidate's familiarity with, and comprehension of, the following selections, questions may also be set to determine within reasonable limits his power of appreciating literary art.

The candidate shall produce satisfactory proof, by the certificate of the principal of the school from which he comes or otherwise, that he has read carefully during the preceding year at least four suitable works in English literature (both prose and poetry) in addition to those prescribed below for examination.

One examination paper.

1910: Tennyson, Ode to Memory, The Dying Swan, The Lotus Eaters, Ulysses, "You ask me, why," "Of old sat Freedom," "Love thou thy land," "Tears, idle tears," and the six interlude songs from the Princess, The Brook, Ode on the Duke of Wellington, Charge of the Light Brigade, Enoch Arden; Shakespeare, Julius Cæsar.

1911: Tennyson, The Poet, The Lady of Shalott, Oenone, The Epic and Morte d'Arthur, St. Agnes' Eve, The Voyage, "Break, break, break," In the Valley of the Causeret; Browning, My Last Duchess, "How they brought the good news from Ghent to Aix," Love among the Ruins, Home Thoughts from Abroad, Up at a

Villa, Andrea del Sarto, The Guardian Angel, Prospice, An Epistle of Karshish, Cavalier Tunes; Shakespeare, Macbeth.

GERMAN

The candidate's knowledge of German will be tested by: (1) simple questions on grammar; (2) the translation of simple passages from English into German; (3) translation at sight of easy passages from modern German, and (4) an examination on the following prescribed texts:—

The texts contained in the High School German Reader.

1910: Hauff, *Das kalte Herz*.

1911: Leander, *Träumereien*, pp. 45-90 (selected by Van Daell).

Two papers will be set: (1) prescribed texts and translation at sight; questions on grammar; (2) the translation of English into German.

FRENCH

The candidate's knowledge of French will be tested by: (1) simple questions on grammar; (2) the translation of simple passages from English into French; (3) translation at sight of easy passages from modern French, and (4) an examination on the following texts:—

Lamennais, *Paroles d'un croyant*, Chaps. VII. and XVII.; Perrault, *le Maître Chat ou le Chat Botté*; Dumas, *Un nez gelé*, and *la Pipe de Jean Bart*; Alphonse Daudet, *la Dernière classe*, and *la Chèvre de M. Seguin*; Legouvé, *la Patte de dindon*; Pouvillon, *Hortibus*; Loti, *Chagrin d'un vieux forçat*; Molière, *l'Avare*, Acte III. sc. 5 (*Est-ce à votre cocher . . . sous la mienne*); Victor Hugo, *Waterloo*, Chap. IX.; Rouget de L'Isle, *la Marseillaise*; Arnault, *la Feuille*; Chateaubriand, *l'Exilé*; Théophile Gautier, *la Chimère*; Victor Hugo, *Extase*; Lamartine, *l'Automne*; De Musset, *Tristesse*; Sully Prudhomme, *le Vase brisé*; La Fontaine, *le Chêne et le Roseau*.

1910: Scribe, *le Verre d'eau*.

1911: Labiche, *la Grammaire*.

Two papers will be set: (1) Prescribed texts and translation at sight; questions on grammar; (2) the translation of English into French.

HISTORY

Great Britain and Canada from 1763 to 1885, with the outlines of the preceding periods of British and Canadian history. The geography relating to the history prescribed.

One-half examination paper.

General outlines of Greek history to the fall of Corinth.

General outlines of Roman history to the death of Augustus.

The geography relating to the history prescribed.

One-half examination paper.

MATHEMATICS

ARITHMETIC—Elementary Rules, Fractions (Vulgar and Decimal), Contracted Methods of Computation, Square Root, Interest, Discount, Commission, Insurance, Stocks and Exchange.

MENSURATION—The Rectangle, the Parallelogram, the Triangle the Circle, the Parallelopiped, the Prism, and the Cylinder.

One examination paper.

NOTE—The problems proposed at this Examination shall be simple and direct, and in their solution neatness and accuracy will be insisted on.

ALGEBRA—Elementary Rules; highest common measure; lowest common multiple; fractions; square root; simple equations of one, two and three unknown quantities; indices; surds; quadratics of one and two unknown quantities.

One examination paper.

GEOMETRY—The examination will be based on the course of study in this subject as prescribed by the High School Regulations of the Ontario Department of Education for the Middle School, and will involve a practical test of the candidate's acquaintance with the graduated ruler, the compasses, the set square and the graduated circle in the solution of simple geometrical problems. The course is covered by Professor Alfred Baker's "Theoretical Plane Geometry," the "Additional Miscellaneous Propositions" being omitted.

ELEMENTARY EXPERIMENTAL SCIENCE

PHYSICS—Use of meter rule; use of calipers and vernier for more accurate metric measurements (*e.g.*, diameters of wires,

thickness of glass, plates, etc.) ; numerical calculations in the metric system.

Use of balance.

Specific gravity, by special gravity bottle and hydrostatic balance of liquids and of solids.

Boyle's law ; barometer ; diffusion of gases.

Use of Fahrenheit and centigrade thermometers ; determination of zero and boiling point ; boiling point dependent on pressure.

Expansion of solids, liquids and gases ; examples.

Specific heat, latent heat ; easy numerical examples.

Transmutation of matter ; indestructibility of matter.

Solution, precipitation, crystallization and evaporation.

One-half examination paper.

CHEMISTRY—Properties of hydrogen, chlorine, oxygen, sulphur, nitrogen, carbon, and their different compounds, especially those of economic and industrial importance.

Mixtures, solutions, chemical compounds, elements, nomenclature, laws of chemical combination, reacting weights, chemical formulæ and equations, with easy numerical examples.

One-half examination paper.

Junior Matriculation: HONORS

41. Requirements as prescribed by the High School Regulations of the Ontario Department of Education for the Upper School.

Undergraduate General Course

42. The subjects to be taken by those pursuing the General Course are:—

First year—English Literature; English Composition; Latin; any two of the following languages, viz., Greek, French, German, Hebrew; Mathematics; Biology.

Second year—English Literature; English Composition; Latin; any two of the following languages, viz., Greek, French, German, Hebrew; Psychology; Geology; Ancient History and Logic, or Mathematics.

Third year—English; any two of the following languages, viz., Latin, Greek, Hebrew, French, German; European and British History (500-1500); Ethics and History of Philosophy; Physics or a third Language.

Fourth year—English; any two of the following, viz., Latin, Greek, Hebrew, French, German, Constitutional History of the United States, Modern Philosophy; European and British History (1500-1900); Astronomy or Economics; Constitutional History of England and Canada.

43. Courses for the Degrees of B.A., M.D.—

Students in Medicine will be granted the degree of B.A. on passing the regular examinations in the following Arts subjects (§18):—

First year—English; Mathematics; and any two of the following subjects, Latin, Greek, French, German.

Second year—English; one of the languages previously taken; Geology; and one of the following:— Mathematics, Ancient History and Logic, the other language.

Third year—English; a language selected previously; European and British History (500-1500 A.D.); Physics of the Third Year in Arts, or another language previously selected.

Fourth year—English; a language already selected; European and British History since 1500; Astronomy or Economics.

44. Undergraduates in the General Course are allowed the following options:—

First year—Biblical Literature, for Trigonometry.

Second year—Students of Huron College will not be required to take Geology, but must take Logic and Ancient History.

Third year—Biblical Greek for Classical Greek; Apologetics for Physics or a Third Language.

Fourth year—Biblical Greek for Classical Greek; Church History for European and British History; Biblical Literature for Astronomy or Economics.

45. Studies in the Undergraduate General Course.—

FIRST YEAR

ENGLISH LITERATURE

POPE, Rape of the Lock; GRAY, Elegy, Ode on Eton College; BURNS, Cotter's Saturday Night, To a Mountain Daisy, To a Mouse, Banks of Doon, A Red, Red Rose, Is there for Honest Poverty; KEATS, To a Nightingale, To Autumn, On a Grecian Urn, Eve of St. Agnes; SCOTT, Rosabelle, Brignall Banks, County Guy, Maid of Neidpath, Pibroch of Donuil Dhu, A weary lot is thine, fair maid, Waken, lords and ladies gay, Jock of Hazeldean, Waverley; CARLYLE, The Hero as Poet; GEORGE ELIOT, Adam Bede; RUSKIN, Crown of Wild Olive; TENNYSON, Ulysses, Tiresias, Northern Farmer (old and new), Locksley Hall (both poems).

NOTE—The poetical selections, except the Tennyson, are to be found in Pancoast's "Standard English Poems," (Holt & Co., New York).

ENGLISH COMPOSITION

The writing of at least four original compositions. Provision will be made by a special paper in English Composition for the examination of candidates who are not in attendance, and who have not presented the essays required. Espenshade's Composition (Heath & Co.) is recommended.

GREEK

XENOPHON, Anabasis 1, 2, 3; HOMER, Iliad 1, 6.
Sight, grammar and prose.

LATIN

VERGIL, Æneid 1, 2, 3; CÆSAR, Bellum Civile 1.
Sight, grammar and prose.

FRENCH

Grammar; dictation; translation from English into French.

Translation at sight from easy modern French prose, and an examination on *Les Français en Voyage* (Edward Arnold, London).

GERMAN

Grammar; dictation; translation from English into German.

Translation at sight from easy modern German prose, and an examination on *Geschichten von Deutschen Städten*, pp. 143-206.

HEBREW

Essentials of Hebrew grammar, translation from English into Hebrew; outlines of ancient Semitic history and geography.

Translation into English of Genesis, I-IV., XL-XLI, Deuteronomy, IV.-V., with grammatical analysis, parsing and vocabulary.

MATHEMATICS

ALGEBRA—Linear and quadratic equations of one, two and three unknowns; ratio and proportion; variation, graphs; inequalities; progressions; interest forms and annuities. (50 hrs.)

TEXT: DeLury's Intermediate Algebra.

GEOMETRY—Inscribed, escribed, circumscribed centers of triangles; mean center and orthocenter of triangles; radical axes and radical centers of circles; axes of symmetry and axes of homology, centers of symmetry and centers of homology; harmonic properties of quads; collinear points and concurrent lines. A general review of substance of Bks. IV. and VI. of Euclid's Elements. (15 hrs.)

TEXT: J. Sturgeon McKay, *Elements of Euclid*.

BIOLOGY

Elementary Biology.

SECOND YEAR

ENGLISH LITERATURE

SHAKESPEARE, *Henry IV.*, parts I. and II.; *Lear*, *Romeo and Juliet*, *Tempest*.

ENGLISH COMPOSITION

The writing of at least four original compositions.

GREEK

PLATO, *Apology*; EURIPIDES, *Iphigenia in Tauris*.

Sight, grammar and prose.

LATIN

VERGIL, *Æneid* 4, 6; OVID, selections from the *Fasti* and *Pontine Epistles* (Wilkinson); CÆSAR, *Bellum Civile*, 2, 3.

Sight, grammar and prose.

FRENCH

Grammar; dictation; conversation; translation from English into French.

Translation at sight from modern French prose, and an examination on *Les Français en Voyage* and *La Main Malheureuse*.

GERMAN

Grammar; dictation; conversation; translation from English into German.

Translation at sight from modern German, and an examination on: *Geschichten von Deutschen Städten*, pp. 143-206; *Hatfield's Ger. Lyrics and Ballads*, II., III.

HEBREW

Hebrew Grammar, with special attention to Syntax; translation at sight; translation of English into Hebrew.

Introduction to Hebrew Literature and History.

Exodus, I-IV.; I. Samuel, XVII., XVIII.; I. Kings, V., VIII.; II. Kings, XVI., XVII.

ANCIENT HISTORY

General History of Greece to 146 B.C., and of Rome to 476 A.D. The text-books will be Bury's *History of Greece* and Pelham's *History of Rome*. Considerable collateral reading will be required. Candidates for Honors will submit during the year essays on assigned topics.

LOGIC

Formal and inductive.

MATHEMATICS

ALGEBRA—Sums of squares and cubes of natural numbers, applications; scales of notation; simultaneous, quadratic and cubic equations in two and three unknowns; imaginaries, undetermined coefficients; elimination; permutations and combinations; binomial theorem, with applications. (25 hrs.)

TEXT-BOOK: Hall & Knight, Higher Algebra, pp. 50-186.

GEOMETRY—Analytical Geometry of the point, line and circle, with an elementary treatment of the parabola, ellipse and hyperbola. (25 hrs.)

TEXT-BOOK: W. M. Baker, Algebraic Geometry, Part I.

TRIGONOMETRY—Trigonometrical ratios and their relations; values of ratios of common angles; formulas of circular measure; applications; ratios of the sum and difference of two angles with derived formulas; logarithms; solution of triangles, with derivation of necessary formulas; radii of inscribed, escribed and circumscribed circles to a triangle; perimeters and areas of inscribed and circumscribed regular polygons, with consequences. (25 hrs.)

MECHANICS—(a) Statics, (b) Hydrostatics, (c) Heat.

TEXTS: Merchant, Elementary Mechanics; Glazebrook, Mechanics and Hydrostatics; Glazebrook, Heat.

PSYCHOLOGY

Sensation, Thought, Emotion, Volition.

FIRST YEAR

ALGEBRA—The subject as treated in Hall and Knight's Higher Algebra, pp. 187-340. (25 hours.)

REFERENCES—C. Smith, Treatise on Algebra; Chrystal, Algebra.

GEOMETRY—(a) Synthetic Plane Geometry (25 hours.)

TEXTS: Dupuis, Elements of Synthetic Geometry; C. Smith, Geometrical Conics.

(b) Analytical Plane Geometry. (50 hours.)

TEXT: C. Smith, Conic Sections.

TRIGONOMETRY—The subject as contained in Locke's Trigonometry, Part II. (25 hours.)

CALCULUS—Elementary, Differential, and Integral Calculus; Applications. (25 hours.)

MECHANICS—(a) STATICS—Conditions of equilibrium of particle in plane; Applications.

(b) KINEMATICS—Equations of motion of particle in plane; Applications.

(c) DYNAMICS—Treatment of laws of force without aid of Calculus; Applications.

(d) HYDROSTATICS AND HYDRODYNAMICS—Treatment without aid of Calculus.

(e) Elementary applications of Calculus to all the above.
 Texts and references will be indicated to meet the
 needs of the class. (50 hours.)

SECOND YEAR

ALGEBRA—The subject as treated in Hall and Knight's Higher Algebra, pp. 340-489, with suitable modifications and extensions. (25 hours.)

REFERENCES: C. Smith, Treatise on Algebra; Chrystal, Algebra; R. F. Scott, Theory of Determinants; Burnside and Panton, Theory of Equations.

GEOMETRY—(a) Analytical Plane Geometry; advanced course. (50 hours.)

TEXTS: C. Smith, Conic Sections; Salmon, Conic Sections.

(b) Synthetic Solid Geometry. (12 hours.)

TEXT: Dupuis, Synthetic Solid Geometry.

(c) Analytical Solid Geometry. (25 hours.)

TEXT: C. Smith, Solid Geometry.

TRIGONOMETRY—Spherical Trigonometry, with applications to Astronomy. (13 hours.)

TEXTS: Todhunter, Spherical Trigonometry; Barlow and Bryan, Elementary Mathematical Astronomy.

CALCULUS—Differential and Integral; advanced course.

TEXTS: Williamson, Edwards. (25 hours.)

MECHANICS—(a) Newton's Principia.

TEXT: Frost's Principia.

(b) Analytical Statics.

(c) Dynamics of a particle.

This course will treat Statical and Dynamical relations by the aid of the Calculus.

Texts will be indicated in class. (25 hours.)

**Special Regulations Governing Students
Pursuing an Honor Course in
Mathematics**

1. Students who intend to pursue an honor course in Mathematics are advised to matriculate with honors in Mathematics and Physics, or to take an equivalent examination before entering the University.

2. Students who intend pursuing an honor course in Mathematics, and who have not matriculated with honors in Mathematics, or passed an equivalent examination in the subject, must attend the lectures and pass the examinations in Mathematics of the first and second years of the General Course before attending lectures or taking examinations in the Honor Course.

3. Students who have not matriculated with honors in Physics, or who do not have equivalent standing in the subject, must attend the lectures and pass the examination in Mechanics of the second year of the General Course before entering the second year of the Honor Course in Mathematics.

47.

FEES

The following fees are payable to the Bursar, through the President :

For instruction, full course, per year.....	Forty-five Dollars	
For each subject, (taken separately), per year.....	Eight	"
